

## CONTENTS

NOTE TO THE READER .....	1
LIST OF PARTICIPANTS .....	3
PREAMBLE.....	7
A. GENERAL PRINCIPLES AND PROCEDURES .....	9
1. Background .....	9
2. Objective and scope .....	10
3. Selection of agents for review.....	12
4. Data for the <i>Monographs</i> .....	12
5. Meeting participants .....	13
6. Working procedures.....	14
B. SCIENTIFIC REVIEW AND EVALUATION.....	15
1. Exposure data .....	16
2. Studies of cancer in humans.....	18
3. Studies of cancer in experimental animals .....	22
4. Mechanistic and other relevant data .....	26
5. Summary .....	30
6. Evaluation and rationale .....	31
References .....	36
GENERAL REMARKS .....	39
THE MONOGRAPHS.....	41
<b>Household use of solid fuels .....</b>	<b>43</b>
1. Exposure Data .....	45
1.1 Description and determinants of use of household fuels .....	45
1.2 Constituents of emissions .....	56
1.3 Use and exposure .....	70
1.4 Interventions and policies to reduce exposure .....	126
1.5 References .....	131

2. Studies of Cancer in Humans .....	144
2.1 Coal .....	144
2.2 Biomass fuel (wood, dung, <i>kang</i> use other than with coal) .....	175
2.3 Mixed coal/biomass (coal and/or wood/dung/ <i>kang</i> use) .....	201
2.4 Proxies for indoor air pollution .....	209
2.5 References .....	220
3. Studies of Cancer in Experimental Animals .....	225
3.1 Coal smoke and soots from household combustion of coal .....	225
3.2 Wood smoke .....	230
3.3 References .....	234
4. Mechanistic and Other Relevant Data .....	236
4.1 Toxicokinetics .....	236
4.2 Mechanisms of carcinogenesis .....	244
4.3 Genetic susceptibility .....	272
4.4 Mechanistic considerations .....	282
4.5 References .....	283
5. Summary of Data Reported .....	299
5.1 Exposure data .....	299
5.2 Human carcinogenicity data .....	301
5.3 Animal carcinogenicity data .....	303
5.4 Mechanistic and other relevant data .....	304
6. Evaluation and Rationale .....	307
6.1 Combustion of coal .....	307
6.2 Combustion of biomass .....	307
<b>High-temperature frying .....</b>	<b>309</b>
1. Exposure Data .....	311
1.1 Definition .....	311
1.2 Constituents of cooking fumes .....	311
1.3 Effect of different parameters of cooking on emissions .....	318
1.4 Human exposure .....	326
1.5 References .....	333
2. Studies of Cancer in Humans .....	337
2.1 Introduction .....	337
2.2 Case-control studies .....	342
2.3 Meta-analysis .....	371
2.4 References .....	372

3.	Studies of Cancer in Experimental Animals .....	374
3.1	Cooking oil fumes.....	374
3.2	References .....	374
4.	Mechanistic and Other Relevant Data .....	376
4.1	Toxicokinetics .....	376
4.2	Mechanisms of carcinogenesis.....	376
4.3	Genetic susceptibility.....	385
4.4	Mechanistic considerations .....	385
4.5	References .....	385
5.	Summary of Data Reported.....	389
5.1	Exposure data .....	389
5.2	Human carcinogenicity data.....	389
5.3	Animal carcinogenicity data.....	390
5.4	Mechanistic and other relevant data .....	390
6.	Evaluation and Rationale.....	392
	LIST OF ABBREVIATIONS .....	395
	CUMULATIVE INDEX TO THE <i>MONOGRAPHS</i> SERIES.....	397

## **NOTE TO THE READER**

The term ‘carcinogenic risk’ in the *IARC Monographs* series is taken to mean that an agent is capable of causing cancer under some circumstances. The *Monographs* evaluate cancer hazards, despite the historical presence of the word ‘risks’ in the title.

Inclusion of an agent in the *Monographs* does not imply that it is a carcinogen, only that the published data have been examined. Equally, the fact that an agent has not yet been evaluated in a *Monograph* does not mean that it is not carcinogenic.

The evaluations of carcinogenic risk are made by international working groups of independent scientists and are qualitative in nature. No recommendation is given for regulation or legislation.

Anyone who is aware of published data that may alter the evaluation of the carcinogenic risk of an agent to humans is encouraged to make this information available to the Section of IARC Monographs, International Agency for Research on Cancer, 150 cours Albert Thomas, 69372 Lyon Cedex 08, France, in order that the agent may be considered for re-evaluation by a future Working Group.

Although every effort is made to prepare the monographs as accurately as possible, mistakes may occur. Readers are requested to communicate any errors to the Section of IARC Monographs, so that corrections can be reported in future volumes.
